MARKETS BY TELEGRAPH. NEW YORE. July 8—Wall Street.—The Times' financial article says that public funds were less firm than yesterday and the day before on the non-confirmation of the rumors from London of the success of Assistant Secretary Richardson in placing the new loan. Private cable telegrams were slient on the subject, and the present was that the report of yesterday was premature. On other stocks the market was tame. The registered sales of railroad stocks were small; the prices can not, however, be called weak as far as business was done at the board or on the street, but there was a lack of spirit in the transsactions of the day which too plainly denoted the absence of anything like pronounced speculation. Money is chesp to brokers and there is superabundance of offering on call loans, while the distribution of the success to the close that had been been took the absence of anything like pronounced speculation.
